Dear Mr. Weisberg:

Enclosed please find cash for two copies of your book - "Whitewash". I am glad that somebody had the courage to do some investigating on the case - the more one reads about Kennedy's assassination - the more confused and skeptical one becomes concerning the findings of the Warren report. If you'll suppose we will ever really know the absolute truth about the tragedy.

I also read the article in the Greater Philadelphia magazine - August 1966 (over

the Warren Commission, the Truth, and Arlen Specter - "(he served as a junior member of the Commission) from what I heard of your book - the article was based on a great deal of details as outlined in your own publications."

Thanks for immediate delivery

Very truly yours,

Esther Shemitz

P.S. Is it possible to forward one of the books to my daughter - (the husband and she read the Warren Report)
